

**THE
CORPORATE
DOOR
COMPANY**

**We hope you are happy with your
newly installed garage door**

Most garage doors require servicing annually to ensure the 'safe and reliable' cover provided by the manufacturer is maintained. These manufacturers require your door to be serviced by an approved engineer at least once a year and that a maintenance record is completed and produced upon a warranty claim.

As part of our after sales support we provide a comprehensive service that extends our own installation warranty and also maintains the manufacturer's 'safe and reliable' warranty.

As a new home owner we are able to offer this annual service to you at a reduced fee. Should you wish to have this work carried out please contact our Service Department by telephone or email.

The Corporate Door Company, also known as CDC Garage Doors, is an expert and experienced supplier and installer of garage doors based in the South East of England. Our team has over 25 years of expertise in the garage door sector giving you the safety and reassurance of a professionally finished job.
