Sectional Garage Doors

**SWS** UK

# Introducing the brand new range of Sectional Garage Doors from SWS UK

Why not purchase your new garage door from the company with over 30 years' experience in delivering high quality products, produced in the UK. SeceuroGlide are a brand leading name with a reputation to match.

We know that by offering flexibility as standard, we can deliver quality garage doors that suit all our customer's individual needs. All doors come as standard with inbuilt unique design features, making your home a warm and secure place to live.

With a range of door surface finishes, colours, styles and innovative features, we are positive that we have the door for you.

## Key features:

- ✓ **Our unique track connecting system:** Smart connect and pre-fitted tensioned side spring system.
- ✓ **Made to Measure:** A perfect fitting door means better insulation and security.
- ✓ **CE Marked:** By purchasing a CE marked door you have peace of mind that your door complies with all European safety standards.
- ✓ **Remote control:** Choose our motorised remote control option, for a smooth effortless operation.
- ✓ **Peace of mind warranties:** Using only the finest components to produce SeceuroGlide Sectional doors, means a complete peace of mind warranty.

**Confidence in design, flexibility as standard** – The SeceuroGlide Sectional door is sure to enhance the insulation and security of your property and create a stylish kerb-side appeal to your home.

With a variety of designs and finishes available you are sure to find the right Sectional door for you.

The Sectional design makes the most of the space both inside and outside of the garage, by rising vertically allowing you to park right up to the door. Headroom can sometimes be an issue but with our 60 mm rear mount option, our door will fit into almost every garage.

The door is manufactured using a 40 mm thick insulated steel panel, which is foam-filled to the highest specification. This ensures that your garage door provides a strong and robust design, whilst offering vastly improved insulation to your garage. All doors come with an anti-finger trap as an integral part of the panels and the weather seal between the panels is located in the female section of the door, reducing the risk of damage.

Offering a bespoke made to measure service as standard, ensures your door is the perfect fit for your garage opening. Take time choosing your door and allow our experts to guide you through the process from start to finish. A local, fully trained installer will visit your home to discuss your requirements then measure and install your door. By carefully listening to your needs they will find the garage door to perfectly suit your home.

The automated range of SeceuroGlide Sectional garage doors can be operated from the comfort of your car or home and come with a choice of motors, including the Black Edition which comes complete with a 5 year warranty.

## SeceuroGlide | Sectional Elite Side Mounted System

**The whole new Elite** – Introducing the feature packed, side sprung, Elite Sectional door from SWS UK.

The Elite Sectional door from SeceuroGlide comes with a range of unique design features to ensure you have a smooth and reliable door for many years to come.

Introducing **our unique track connecting system, a patented running mechanism unique to our door.** This feature not only gives a smooth operation but increases the strength of the whole operation of your door. Factory fitted partially tensioned springs and cables ensure that the door is perfectly balanced for ease of use, with reliable operation for both manual or remote control automated doors. Elite doors can be used to maximum widths of 3200 mm.

The door can be fitted into 100 mm of headroom or 130 mm for electrical operations. The double weather-seal fitted to all of the SeceuroGlide Sectional doors gives you both an external seal against the weather but also an internal seal designed to help form a thermal break on the door panel itself.

**10 Year  
Warranty**

All of our Sectional garage doors come complete with a comprehensive warranty – see **Page 12** for more information.

## SeceuroGlide | Sectional Plus

Front Mounted System

For the larger garage door. This system is suitable for doors up to 6000 mm wide.

Whether you're replacing an existing double garage door or thinking of replacing your existing twin doors for a large double sized opening, the SeceuroGlide Plus will do the job. The Plus has all the same running gear and tracks, but uses a front-mount torsion springing system to lift the door safely. The reinforcing bracket on the track system gives you peace

of mind when operating a door of this size. Made to measure as standard and available in a range of panel designs to suit your home, giving you the flexibility to design the perfect garage door for you. Requiring just 160 mm of headroom, the Sectional Plus will leave you with maximum clearance and drive-through height.

## SeceuroGlide | Sectional Compact

Rear Mounted System

Low on headroom? Compact is the answer.

We offer the rear mount torsion springing system, which is perfect for fitting our Sectional door into low headroom garages. With this design of door only 90 mm of headroom is required, including the motor.

**Note:** Sectional Compact not available as a manual operation.

Our low headroom Sectional door comes with all of the standard design features but allows you to install the door in garages with limited space.

Please ask your installer about our **unique track connecting system**, giving your door a strong and smooth operation.

# 4 STEPS

## to the Perfect Sectional Garage Door

1

### Choose your Panel Type

There are 6 panel options to choose from, including the popular cassette design and more contemporary options such as the centre ribbed and top rib panels. (\*Smooth only)

## Choose your Accessories

Become the envy of your street with stunning accessory options such as aluminium handles, stainless steel porthole windows and glazing options. Speak to your garage door specialist about where and how you'd like your accessories to be positioned.

**Glazing** – PVC (white/black) with polycarbonate windows (optional Georgian Cross) OR **Steel** (round/square) with clear or frosted glass windows.

### Handles

# Things to highlight

## Insulated Panels

Our insulated panels are 40 mm thick and consist of a CFC-free core encased in between two steel sheets, which are embossed or smooth. They are then coated in a hard wearing polymer paint finish, to give superior performance against corrosion and weathering. The finish is also UV resistant reducing the risk of fading. The DPU weather strip is inserted into the bottom of the panel which reduces the wear on the leading edge of the door panels.

All of our doors are made to measure as standard and can be delivered to your installer within weeks of your order date. Additional manufacturing time may be required if the door has any bespoke detail.

## Panel Performance

All of the SWS panels are constructed with two steel sheets which encase a foam core for strength and insulation. The steel is hot dip galvanised, then a primer coat and a polyester finish coat is applied. Our standard finishes feature superior performance against corrosion and weathering. The surfaces are easy to clean with water and natural soap.

## Track System

The new SWS UK Sectional door track system is manufactured by our European partner, using the patented smart connect tracks. This tracking system allows the fitter to adjust the tracks to make your door run smoothly for years to come. The tried and tested galvanised steel running gear is both strong and durable.

# Original Thinking SeceuroGlide Sectional

### Durability

Mounted to the ceiling of the garage, the motor operates quickly and quietly in even the most arduous of installations.

### Have It Your Way

A comprehensive range of accessories are available to enhance the automation of your garage door. Select a control most suitable for you from a convenient key-ring transmitter, wall switch or radio keypad.

### Peace-of-Mind

The motor is fitted with an automatic stop if an obstacle is encountered, retracting the door approx. 200 mm clear of the obstruction, offering you complete safety and peace-of-mind.

### Fully CE Marked

SeceuroGlide Sectional garage doors are fully compliant with all European approach directives and product safety standards and are CE marked to demonstrate their compliance.

Learn more about the importance of conformity and CE marking on **Page 12**.

# Sectional Systems

## SeceuroGlide | Sectional Elite Side Mounted System

### Unique design features of the door gear

Unique track connecting system, reinforcing radius bracket, pre-fitted cables and springs. Pre-tensioned springs. Adjustable roller brackets and vertical tracks. 100 mm headroom required. Alloy right-angle header bracket, all of these features ensure you get a smooth and reliable door.

## SeceuroGlide | Sectional Plus Front Mounted System

### Front torsion spring system

Anti-drop safety brakes as standard with 100 mm cable drums. Reinforced anchor plates for front rollers. 160 mm headroom required. Running gear as shown to the left.

## SeceuroGlide | Sectional Compact Rear Mounted System

### Features of the compact mechanism

The tracking allows us to use less space to fit the door. Just 90 mm of headroom is required, including the operator, meaning the door can fit into most low-headroom garages. The 60 mm drum wheels give a smooth operating system, which also cuts down on the wear and tear on the door itself.

# Engineered from the Inside Out...

Anatomy of SeceuroGlide Sectional.

## 1 Sleek Design

The interior of every door is completed with a white stucco finish and galvanised coated centre hinges giving your door a cleaner finish and style inside and out.

## 2 The Ultimate Space-Saver

The SeceuroGlide Sectional garage door headroom options make this the ideal garage door choice for almost any garage space.

## 3 Security Built-in

The strong tracks fixed directly to the garage walls, give extra strength and helps to keep the building secure. The motor holds the door securely in the locked position.

## 4 Fingersafe Joints

Each joint features a finger safe design ensuring that fingers cannot be caught or trapped between the panels, offering complete peace-of-mind.

## 5 Double Weather Shield

Substantial seals reaching 30 mm into the opening at the top, sides and bottom of the door, protect against wind and rain and provide an all-weather superior seal for your home.

## 6 Smart Connect

The SeceuroGlide unique connection system features on all doors. Ensuring smooth operation, strong joints and long lasting stability.

## 7 Energy Efficient

The 40 mm Polyisocyanurate (PIR) insulated door panels provide an insulation value of 0.60 W/m<sup>2</sup>k, ensuring your garage is energy efficient and saving you money. The panels also reduce noise.

## 8 Fully Adjustable

Fully adjustable tracks and roller bearings. Offering a long lasting system, whilst ensuring ease of adjustment during service intervals.

## 9 Pre-assembled

Fitter friendly pre-assembled and pre-fitted spring assembly. Makes the side sprung door easy to tension and accurately fit.

# Other Products You Might Like

**SeceuroShield**  
Physical Security

Improving your domestic security needn't mean turning your home into a fortress. The SeceuroShield range of made-to-measure physical security has been specifically developed to provide an attractive, effective answer to the growing need for protection from vandalism and burglary.

The range (including shutters, retractable gates and removable window bars) has been engineered to allow simple integration with any building; bolstering security and deterring would-be intruders.

Our homes are not simply the place in which we live; they are our most precious assets and a haven from the world outside. Research has shown that houses without any form of security, are three times as likely to be broken into than homes with security systems. Therefore, protecting our homes has never been more important.

The SeceuroShield range of products combines easy operation with high performance to offer numerous options for any home. With a choice of insulated slats, extensive colours and even products which can be removed when not in use, security which blends into your lifestyle and the look of your home is more achievable than you may think.

## What I need:

- Feel secure without compromising the look or style of my property
- Have peace of mind that my property is secure
- Reduce heat loss through windows and doors
- Be cool in the summer and warm in the winter
- To darken a room at the touch of a button
- Protect fabrics and furnishings from sun damage

Choose the SeceuroShield range for total peace of mind for you and your family.

# Your Garage Door Checklist

Remember, only SeceuroGlide offers all of the following:

✓ **A name you can trust**

When buying a SeceuroGlide door you can be reassured by the values behind the name. Every SeceuroGlide door is CE marked and SWS UK is an ISO 9001:2008 assessed company. SWS UK is a subsidiary of CRH plc, a UK FTSE100 company.

✓ **A perfect fit**

With every door made-to-measure exactly to the mm, SeceuroGlide garage doors are the truly bespoke choice for your garage.

✓ **Manufactured in the UK**

Using the latest machinery and equipment, all SeceuroGlide doors are proudly manufactured and assembled in the UK.

✓ **A solution for everyone**

With so much choice SeceuroGlide doors can accommodate almost every garage. Whether you have limited headroom or require manual operation, there is a SeceuroGlide door that's right for you.

✓ **Engineered to perfection**

Through continuous development and specialist engineering, SeceuroGlide doors offer unrivalled quality and the most advanced garage door specifications.

## The importance of conformity and CE marking

It is against the law to install a power operated garage door in the UK without complying with The Machinery Directive.

To comply with the Machinery Directive both the door and the motor and controller used in the installation must have a **Declaration of Incorporation** from the manufacturer.

On completion of the installation the installer must provide a **Declaration of Conformity** and apply a CE mark giving details of the installation to the door / motor and controller combination, which is now classed as a machine.

The installer must issue to the customer a Declaration of Conformity, maintenance and operation instructions on the completion of the installation.

The installer must hold copies of both the Declaration of Incorporation and the Declaration of Conformity on a technical file for inspection by the relevant authorities.

If any of the above requirements are not fulfilled the Installation is illegal.

Please ensure for your own safety and peace-of-mind that whoever installs your electric motor and controller is both willing and able to fulfil these requirements; if they are not – do not use them.

As a member of the DHF Garage Door Installer Group we CAN and WILL install your motor and controller safely and legally.

## Peace-of-Mind Warranties

All SeceuroGlide products are guaranteed against defect of material or workmanship by SWS UK with a parts only warranty, subject to correct installation, maintenance and operation, for a period of 10 years from the date of purchase. The Black Edition motor also carries a 5 year warranty.
